

# FAST Solution

## Focused Area Service Trucks

## Mobile customer service 24/7

### Value-added:

Ensuring customer uptime led to the establishment of the FAST Solution with skilled technicians ready to repair NOV equipment, including Top Drives, Iron Roughnecks, EDS Systems, Power Systems, AMPHION™ Control System and T3™ and Shaffer™ BOPs. The truck arrives at your drilling location pre-loaded with replacement parts, filters, consumables and tools to get your NOV equipment running at OEM specifications.

### Aftermarket Services:

We provide comprehensive aftermarket product and service solutions to support the lifetime of your equipment through an integrated network of strategically located facilities. It takes one phone call to initiate a technical support team to troubleshoot and resolve your equipment issues. Allow our trained experts to service your equipment and keep your rig operating.

### Uptime all the time:

FAST Solutions are capable of reaching remote, rugged areas 24/7 with our on-call technicians. We work quickly and efficiently to increase your uptime and eliminate interruptions in your operation. Now with over 30 service trucks in operation, we are located in drilling regions across the United States in order to reach you quickly with our pre-stocked trucks.
