Field Service

At NOV we understand your need for rigs that run reliably and efficiently to capitalize on your investment. Our philosophy is simple – we provide you with the right people, in the right place at the right time. Our knowledgeable staff of field service technicians can quickly deploy to your site and resolve your NOV equipment issues, whether structural, mechanical, electrical, or software-related. Our NOV technicians train extensively on NOV product lines and complete intensive competency and evaluation training at the NOV Technical College. Our in-depth knowledge of your OEM equipment enables us to have the correct skill set, the OEM spares and the latest updates you need to get the most from your NOV equipment.

Features & Benefits

- Global network of trained experts on hand to ensure maximum rig uptime and effectiveness
- 24/7 remote support for mechanical, electrical, structural and control/instrumental specialists
- OEM expertise and support
- Equipment and condition monitoring technology
